that his father had resigned the portione of State.

By many his presence was assumed to be positive evidence that the ex-Secretary was really and earnestly out for the nomination and was not simply "in the hands of his friends."

It was to Emmone Blaine at Chicago that the despatch "Pa will accept "was alleged to have been sent by his mother at about the time the news of the resignation was given out at Washington.

There is a distressing suddenness about the news of to-day. A builletti received in New York shortly after noon teld that Emmons Blaine was dying. It was quickly followed by word that he was dead. There was absolutely no warning.

It is grevious news to carry to Bar Harbor.

Reasons Why the Proposed Change in Time Should Be Made.

If any of the Park Commissioners should visit East River Park when a concert is being given there they would find ocular proof in support of the arguments in favor of changing the hours of the Thursday concerts from 4 o'clock in the afternoon to 8 o'clock in the

cvening.

The musical programme rendered on Tuursday by H. A. Hail's Old Guard Band was thoroughly enjoyable, and the redcoated musicians were heard at their best. But the people who most enjoy the concerts, that is the majority of them, were not present. They included the husbands, sons and daughters who were at work in the shops and factories, and the housewives who were busy preparing the evening meal for the weary and hungry tollers soon to arrive

There was, however, an audience at the concert, and a large one, too, but it was far 30,000 People at the Track from being representative of the people who live in that vicinity. The absence of men and older boys was particularly noticeable. The majority of the women and older girls present were in charge of bables. In fact, baby-carriages were seen in every part of the

park. Many of these infantile charlots belonged to the richer classes. The lit-tic tots who occupied them occupied their time in sleeping, sucking their pudgy fists, kicking at the fringe on their perambulator tops and paying attention to nearly everything except the music. Their guardians gossiped and visited Madstone. George W., King with each other, commenting more on the Madstone. handsome uniforms wern by the band than on the beautiful selections rendered.

These people do not live in the neighborhood. They frequent the park every pleasant day, and apparently care very little whether

a concert is given or not.

The mothers who took their little ones to the Park Thursday as a rule did not occupy seals near the band stand. They sought cool and sequestered spots in remote places in the where they entirely forgot the concert in watching the craft ply swiftly up and down-
